Bird migration

migrate- large flocks of birds

Birds are amazing with their colorful feathers. They look for food and warm place to stay, so they migrate. Many birds migrate from Europe to Egypt in winter like eagles, falcons and swifts. Many water birds migrate, too. You can often see large flocks of birds such as falcons near water. Some of birds migrate for the first time, but they know how to get to the place they want to go. That's an awesome thing.
